

Be Part of the Solution

36,000 Americans die yearly
from a vaccine preventable disease;
INFLUENZA

Hosting a clinic is easy and we have no set up fee.

We handle everything and furnish you with all you need to host a clinic. We give you flyers, reminders, consent forms, e-mail blurbs, etc. to insure your clinic's success.

You need a minimum of 15 people in order for us to come on site. One nurse can do about 25 - 30 shots per hour. All you need to provide is a space with one or two tables or empty desks, at least two chairs and a waste receptacle.

EMPLOYERS – With the rising cost of health care for employers, this is one affordable way to give you employees a benefit that also benefits your company. Keep your employees healthy and working.

The company may pay for the vaccinations, or you may want the employees to have a co pay.

HEALTH CLUBS, ASSOCIATIONS, CHURCHES AND SCHOOLS –

This is a value added benefit for all of your members and employees at no cost to you!

RESTRICTIONS

Click here to fill out an on line registration form.

Children 6 months & up only with written parental permission.

CHILDREN 6 months–4 yrs – We need to know in advance – so the nurse will have the proper vaccine.

FLUMIST ages 2 – 49 yrs - needs to be ordered in advance.

CHILDREN ages 11 – 17 yrs need written parental permission for the **TDaP vaccine**.
